

Manufacturing

I. Revenue & Commerce

A. Quotations

1. In revising the project, it should not create another project but instead it should just update the project. If every revision creates a new project, it will cause lots of confusion.

PROJECT NAME	CUSTOMER	LATEST QUOTATION	AGREED PRICE	REVISIONS	STATUS	PROJECT DECISION
No Project Name (Quote: QT-20260705-131950-REV1)	Andrei Jam Bacho Siapno (ANDREJAMB)	QT-20260705-131950-REV1	P0.00	1 sheet(s)	Draft	<button>Approve Project</button> <button>Reject</button>
No Project Name (Quote: QT-20260705-131950)	Andrei Jam Bacho Siapno (ANDREJAMB)	QT-20260705-131950	P0.00	1 sheet(s)	Draft	<button>Approve Project</button> <button>Reject</button>
RT 001	TEST PROJECT (TESTPROJEC)	QT-20260624-160355-REV4	P2300.00	5 sheet(s)	Draft	<button>Approve Project</button> <button>Reject</button>

2. Add a search bar filter.
3. Add paginations at the bottom.

10. When creating new customer, you should add a "*" to the required field and if the user forgot to fill it, it should have a red border and the user will be redirected to that required field.
11. In selecting a billing address, it should have a search bar for the user to easily search the data they want.
12. The store type registration here has the wrong timestamp when saving the unregistered store type.
13. When registering the customer it has the wrong time stamp.

The screenshot shows a customer registration form with a dropdown menu for "Select Province..." open, displaying a list of provinces in the Philippines. The form includes fields for "CUSTOMER ACCOUNT CODE" (with a red asterisk indicating a required field), "STORE/OUTLET NAME", "STORE TRADE TYPE", "CONTACT NUMBER", "CITY / MUNICIPALITY", "BARANGAY", and "GEOGRAPHIC COORDINATES (FOR ROUTE OPTIMIZATION)". A red error message is displayed in the top right corner: "Invalid foreign key for field 'store_type' in collection 'customer'". The form has "Cancel" and "Save Profile" buttons at the bottom.

B. Sales Orders.

1. The timestamp is not PH base for the approval to change it to PH base.
2. Remove the Quotation Pipeline.
3. Instead of adding an action button for the view details for the order just make each order a clickable so when the user clicks that product it will just show the order details.
4. Instead of putting the order details at the right side leaving it empty when no order is selected convert it into a pop-up modal instead.

C. Forex Manager

1. When applying or saving the forex it should have a pop up modal for confirmation.

D. Client Directory

1. Add pagination.

E. Sales Order Approval.

1. The timestamp for the approval is not a PH time update to match the PH time stamp.
